

NOTICE TO PATIENTS

State law, A.R.S 32-1401 (25)(ff), requires that a physician notify patients that the physician has a direct financial interest in a separate diagnostic or treatment agency to which the physician is referring the patient and/or in the non-routine goods or services being prescribed by the physician, and where these are available elsewhere on a competitive basis. OrthoArizona supports this law because it helps patients make reasonable financial decisions concerning their medical care.
